

SOLUTIONS...*FINALLY!*

No other book offers over 75 amazing cures from 20 genres of emerging science.

Dr. James Schaller and Kimberly Mountjoy understand depression. They experienced it. After a review of world research, they share clear and simple paths to cure you or your child.

James Schaller, MD patented a transdermal antidepressant—a natural liver chemical. He has training in adult and child psychiatry and is the author of 30 books and 27 academic publications accepted by 12 top journals.

Dr. Schaller discusses depression promoters unknown in mental health such as common emerging infections that almost killed his family in 1998. His expertise includes *rarely known* medical causes of depression.

He has been a journal reviewer for 6 medical journals, and a grant reviewer at NIH. His grants come from traditional and alternative medical companies.

Kimberly Mountjoy, MS is the author of 8 books and 7 research papers. Her training is in biochemistry, cell biology, and chemistry.
